

**The Kronen all-purpose cutter
with a capacity from 2 to 16 litres
Compact, quick, outstanding quality.**

There are good reasons why chefs from the „Olympic Cookery Games“ demand Kronen cutters. Because the results have to be top range. Handling the equipment needs to be easy and straightforward without any gimmicks. Quality and hygiene have to be of truly olympic standards.

Here you can see what our Kronen cutter looks like: Entirely made from stainless steel, extremely durable, a device to wipe the bowl, and with exactly the right blade cut.

The cut star series:

2 litres with a speed of 1500 rpm, without wiping device
3 litres with one or two speed settings, 1500 rpm or 3000 rpm, both with pulse setting

Cut Star 11ltr or 15ltr bowl

Two speed settings or variable speed.
Additional models up to 60ltr capacity on demand.

Chefs don't buy a cutter, they buy a NAKO.

For 25 years it's been a household name for quality, power and reliability.

Two speed settings: 1500rpm and 3000rpm, bowl wiper - and the installation and cleaning is child's play.

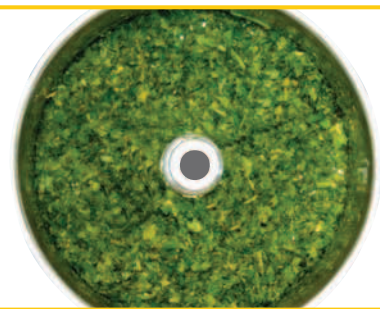

We have to admit: We didn't invent the cutter - but as you can see, we've made the best of it!

Mixing results like never before - with minimal heat production.

Stuffings, tartare, mince meat etc.

Parsley, herbs

Mayonaise, sauces, dressings, soufflés

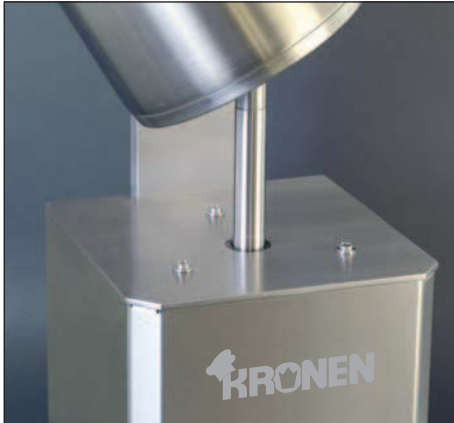

Almonds, nuts, breadcrumbs, cheese

Soups, sauces, desserts, creams etc.

Why choose a Kronen cutter?

Casing entirely made from stainless steel with smooth surfaces. Easy to dismantle without the use of special tools. This is what hygienic food technology looks like.

Technical data:

model/capacity	2 l	3 l	3 l	5 l NAKO	11,5 l	15 l
wattage	0,35	0,4	0,6	1,5	4,5	4,5
speed	1400	1400	1400 + 2800	1500 + 3000	1400 + 2800	1400 + 2800
dimensions in cm						
height	32	35,5	35,5	51	52,5	60
width	20	20	20	24	41,5	41,5
depth	25	25	25	24	50	50
weight in kg	8	10	10	24	45	55

The lid is made from indestructible 2cm thick polycarbonate with integrated bowl wiper and a seal - so you can also process liquids.

We use hardened blades for lasting cutting performance. The blades are easily taken off if they ever need sharpening.

Further models with a capacity of 25, 40 or 60 litres on demand.

We cater to your exact needs. **Kronen - the No. 1 for your kitchen devices**

To complement your existing range we also recommend:
