

NIZZA CLOG WITH BACK-STRAP (Rotable & Replaceable)

Made according to the norm CE ISO EN 20 347 OB+E

Ultra lightweight

Wide fit sole

Highly non-slip soles

Breathable uppers

A light, washable and ergonomic clog, manufactured in one piece through direct injection; superior lightness and flexibility; there is no stitching or gluing between the upper and the sole. With a non-slip sole and a wide unisex form, it provides support for the foot without compression. Their ergonomic design allows for a balanced distribution of body weight. Its glossy finish that does not age is associated with a modern worker. Codeor Quality products deliver superior comfort, longer resistance and durability.

Available in Black and White; Sizes EU 35 – 49; WITH OR WITHOUT PUNCHED UPPER
